**Maria Besse/Thomas Besse/Bernd Goelzer: Major's Office Accounts Of The City Of Hornbach And Inhabitant Lists From 1633 To 1700. Published by the Palatinate-Rhenish Family History, registered society, 249 pages, hardcover, thread binding, off-set print, 8 colored pages, 5 maps, 12 photos and 4 illustrations, Ludwigshafen 2002, ISSN 0171-1512, EURO 20.00.**

For the first time the author team Dr. Maria Besse, Thomas Besse and Dr. Bernd Goelzer edited mayor's office accounts from the dukedom Palatinate Zweibruecken from the 17th century. On the basis of the original they transcribe the mayor's office accounts of the city of Hornbach (*Statt Hornbacher Bürgermeisterey-Rechnungen*) of the years 1688/89, 1698/99 and 1699/1700, supplementary a detailed introduction and inhabitant's lists from 1663 to 1675.

During the last years, mayor's office and town accounts from the Middle Ages and the early modern time experience higher interest. This is not a surprise, because they form the primary reports of the towns for these epochs. How were the accounts built up? Which positions are grasped in detail? Can the family researcher find personal data therein? These questions remain unanswered if information is only taken in extracts from the mayor's office accounts.

Three mayor's office accounts are entirely published in the original text. The cameralistic construction of the accounts books is thereby disclosed exemplary. For the first time a detailed insight is granted in the accounts of a city administration after the 30-year-old war. In the specialized literature one can only rarely find office of mayor accounts completely edited.

A register of family names and field names complete the book, which is of special interest to name and family researchers as well as to historians.
